

STEWART DISABILITY LAW

Social Security & Long-Term Disability · Representing clients nationwide

A Referral Resource for Clinicians

Helping your patients with chronic neurological disease secure the disability benefits they have earned.

We represent patients nationwide in Social Security Disability (SSDI) and private long-term disability (ERISA) claims, with a focus on progressive neurological disease. Because our founder practiced medicine before law, we understand your patients' conditions — and how the medical record must read to win.

Why refer to us

- Led by **Thomas M. Stewart, MS, PA-C, JD** — a disability attorney who is also a licensed physician assistant.
- Nearly two decades in neurology; leads the disability program at the Rocky Mountain MS Center.
- Author of clinician guides on documenting disability for patients with MS and Huntington's disease — the HD guide co-authored with the Huntington's Disease Society of America (HDSA).
- SSDI and long-term disability (ERISA) claims, handled nationwide.
- **No cost to your patient unless we win.** Consultations are free.

Conditions we focus on

Multiple sclerosis · Parkinson's disease · Huntington's disease · Lewy body dementia · ALS and other progressive or chronic conditions, considered case by case.

When to refer

Consider a referral when a patient can no longer sustain full-time work because of fatigue, cognitive change, motor symptoms, or the unpredictability of their disease. **Earlier is better** — for some patients, waiting too long narrows the window to qualify.

Refer a patient — or ask a clinical question

Referrals & office: **(720) 301-9708** | Clinician line: **(303) 378-4144**
